

# Gallery / No Gallery

A project initiated by **Nico Dockx** — upon invitation of **Sébastien Delire**. The project proposal creates on a yearly basis a set of 30 unique shares that will support both the activities of the artist, the gallery, as well as a different **Charity Project** each year.

For the year \_\_\_\_\_ it is decided to support

This certificate acknowledges that

\_\_\_\_\_ or the person to whom this share certificate has been duly noted, obtains a unique share certificate in the project for the amount of € 800,00 (excl. 6% VAT, if applicable), of which the share capital has been fully paid.

During twelve consecutive months the shareholder holds a proportional share in the supporting structure named **Gallery / No Gallery**, according to the project proposal's idea of sharing and co-creating, duly noted and valid at the time of acquisition. The shareholder will receive in the year following the acquisition (always organized at the end of the year) all communication and printed matter of the share certificate's content being produced by the artist.

The share certificate shall be issued to registered shareholders and recorded in the project's register of shareholders, identified by name, profession, address and contact details. Any transfer of shares requires prior consent from the artist who initiated this project, and can never be sold but only given or exchanged.

All registered shareholders will be contacted again by the artist at the end of each year to give them the possibility and preferential right — if interested — to further engage and contribute to this work-in-progress by opting in for a new share in the following year, hereby supporting a newly defined charity project.
